Being a Carer can often affect your own health.

By letting your GP surgery know that you are caring for someone could help your GP offer you better support.

By using this form your practice can mark your records to indicate you are looking after someone who cannot manage without your help

This will enable your GP practice staff to see instantly that you might need extra support and advice. In addition if the person you care for is able to give their consent their records can be linked to yours as their Carer.
